

# Time Clock Features

## How do your systems communicate?

isolated time clocks offer a variety of connection options to suit your unique business.

- 1 Ethernet (TCP/IP)**  
Directly connect through an ethernet on a network, allowing for remote communication. 
- 2 Power Over Ethernet**  
Skip electrical power cable installation and connect your time clock through ethernet. 
- 3 Wireless (WiFi)**  
Connect your time clock to your network via WiFi. 
- 4 USB Port**  
Download clock punches onto a flash drive and then upload them to isolated Time & Labor Management. 

## How do your employees punch in their time?

isolated time clocks support multiple readers, from traditional swipe cards, proximity readers, pin entry to touchpad.

- 1 Pin Entry**  
Clock in/out by typing in a pin number using the keypad on the clock. 
- 2 Magnetic Swipe**  
Clock in/out using a magnetic card with the magnetic side up through the time clock. 
- 3 Proximity**  
Clock in/out using a pin or by waving an RFID proximity badge or card. 
- 4 Touchpad**  
Clock in/out using touchpad entry. 
- 5 Facial Recognition**  
Clock in/out using facial recognition. 

# Additional Features

Access the features below to have a complete time clock experience for your workforce.

- 1 Battery Backup Accessory**  
Continue to use your clock in the event of an electrical failure with battery power. 
- 2 Schedule, Meal & Break Lockout**  
Restricts employees from clocking in, starting meals or taking breaks outside of their assigned schedule. 
- 3 Bell Relay**  
Set up relay events on your time clock to signal when it's time to begin or end a shift. Lunch breaks can also be added as an event. 
- 4 Door/Buzzer Relay**  
Provide access to open doors within your facility, and track door access punches. 
- 5 Labor Transfers at Clock**  
Provide employees the ability to transfer between different organization levels at the clock. 
- 6 Tips/Adjustments**  
Allow your employees to make time adjustments at the clock, as well as enter tips. 
- 7 Rugged Case**  
Protect your time clock from damage on the jobsite with our rugged case. 
- 8 Self-Service**  
Allow your employees to view their schedules, accruals and time card details as well as enter time-off requests. 
- 9 Company Logo & Employee Profile Picture**  
Brand your time clock with your company logo and add employee profile pictures to ensure they're accessing the correct account. 
- 10 Multi-Company Clock Support**  
Allow your employees to select and clock in under the correct company, ensuring accurate time tracking across multiple locations or entities.
